

### **Chesapeake Elizabeth Treatment Plant Project Underway**

**Apex, NC (7/25/2011)** - Crowder Construction Company was awarded a \$2.8 million construction contract from the Hampton Road Sanitation District for improvements to the Chesapeake Elizabeth Treatment Plant in Virginia Beach, VA.

The project, which will be completed in September 2011, involves replacing the effluent outfall pipe approximately 150 feet into the Chesapeake Bay. The project also involved the replacement of the underground effluent pump station discharge center and the electrical feed for the pump station. The new outfall was operational in June and the bypass system for the effluent pump station was placed into service at that time.
