

City of Martinsville Landfill Gas-to-Energy Project Underway

Apex, NC (8/1/2011) - Crowder Construction Company was awarded a \$1.7 million landfill gas-to-energy project for the City of Martinsville, VA in March 2011. Crowder teamed with an engineering partner, Richardson Smith & Gardner (RSG), for this design-build project.

The City of Martinsville received a Biomass Grant through the Virginia Division of Energy in the amount of \$1 million for the development of a landfill gas-to-energy project. Crowder will develop a facility at the closed Martinsville Sanitary Landfill to generate electricity from landfill gas. The City extended their power lines out to this site for the purpose of capturing energy from the new facility. This project is expected to be complete in December 2011.
