Crowder Awarded Woodruff-Roebuck Raw Water Intake Facilities

Apex, NC (8/1/2011) - Crowder Construction Company was awarded a \$4.9 million contract to construct two new 9 MGD raw water intake facilities for the Woodruff-Roebuck Water District. One facility will be located on South Tyger River and the other on North Tyger River.

Construction of this project includes installation of static screens complete with an airburst cleaning system in the river, cast-in-place wetwell pump stations with depths to 30 feet, and complete electrical and controls systems. Crowder expects to begin work on this project early this fall.
