## Amerson Raw Water Intake Modifications Project Underway

**Macon, GA** (08/17/2010) Crowder Construction Company was awarded a construction contract from the Macon Water Authority (MWA) for electrical improvements to the Amerson Raw Water Intake at the Amerson Water Treatment Plant outside of Macon, Georgia. The intake, originally constructed in the mid 1990's, is located on the Ocmulgee River and acts as a booster pump station.

The electrical improvements include providing a new 1000 HP Variable Frequency Drive, electrical gear and SCADA upgrades.

Crowder received official notice of award on July 20, 2010.
