

Recruiting Successes and Recruiting Schedule

We have been very fortunate to visit some fantastic schools and we look forward to new university relationships. We have direct contact with your career centers and cooperative education office staff. We try to attend school career fairs twice per year and we advertise our positions on your school's website. We recruit well in advance to meet anticipated needs and give our students plenty of information and time to make an informed decision.

This season we are visiting the following schools. Look for our booth. We are excited to visit with you!
